Letter of Recommendation

India will prove to be a very important market from the Jaeger Envirotech perspective. We will constantly look towards increasing our footprint in the Indian subcontinent and for which we will need a partner who understands the local markets, both from a cultural and a technical perspective and has a process in place. We have been really fortunate to partner with Mutual PR in this endeavour. Mutual PR brings a surprisingly deep knowledge of the markets and of the product with a mature, client relations team pan-India. Their Partner Identification Programme process helped us in identifying the right partner that is a perfect fit for us in the Indian market. The senior management at Mutual PR, contributed with invaluable inputs which helped Jaeger chart out its business strategy for an all India play.

Jäger Umwelt-Technik GmbH & Co. KG
